

Special Issue

Gender, Sexuality and Mental Health

Message from the Guest Editors

A large body of scientific research has identified factors that show an association between gender/sexual aspects and mental health. Research usually associates interpersonal discrimination and stigma with poor mental health outcomes, but further investigations of the influence of psychosocial contexts and norms on mental health and well-being are needed. This essential task has relevant implications for health and social interventions, as well as policy measures aimed at prevention. Focusing on enhancing the effectiveness of primary care and related services, while also investing in prevention programs, resources, and research, this Special Issue will contribute to promoting mental health outcomes. More specifically, sexual orientation and gender identity need to become a part of routine data collection so that inequalities in mental health and well-being can be more fully understood and addressed. For this Special Issue, we welcome original research, reviews and commentaries that provide new knowledge about determinants of mental health and well-being, focusing on gender and all forms of sexualities from around the world.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
