Advancements and Challenges in Contemporary Endodontics: A Call for Evidence-Based Practice and Enhanced Education

Message from the Guest Editor

The field of endodontics is undergoing a rapid transformation, marked by the introduction of innovative techniques and tools. While the advantages of some innovations are clear in terms of patient benefits, there remains uncertainty surrounding whether some shifts are driven by commercial interests rather than solid scientific evidence. Therefore, there is an urgent need for rigorous scientific studies that either support or refute many of the innovations gaining popularity among clinicians, with the ultimate goal of ensuring the best possible treatment outcomes for patients. One crucial aspect that warrants attention is education. The emphasis on cultivating competent endodontists should go hand in hand with clinical research. The benefits to the population stemming from the introduction of safer and more effective techniques are only realized when adequate tools are provided to disseminate knowledge effectively. This Special Issue aims to gather valuable scientific contributions from researchers worldwide, with the objective of enhancing evidence-based practice and education.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
