

## Special Issue

# Lung Involvement in COVID-19: Short and Long-Term Impact and Management

### Message from the Guest Editor

A novel coronavirus disease (COVID-19) caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) began to spread rapidly worldwide in December 2019, reaching pandemic level in March 2020. Although most of those infected experience mild to moderate symptoms, a considerable number of cases develop severe pneumonia and respiratory failure. Growing evidence suggests that even in cases that did not require hospitalization, COVID-19 survivors may experience lung changes, as well as short- and long-term respiratory effects such as decreased lung capacity and breathlessness. This Special Issue of *Healthcare* seeks to explore various aspects related to the lungs' involvement in COVID-19. We welcome original epidemiology or clinical research, short reports, and reviews leading to the advancement of knowledge of the impact of COVID-19 on lung health, as well as potentially effective management interventions at different stages of infection.

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

*Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX  
75246-1754, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

#### Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
