

Special Issue

Contemporary Surgical Trends and Management

Message from the Guest Editors

This Special Issue aims to present articles that bring new knowledge related to the field of surgery, especially in the part related to the use of new biomarkers, prognostic factors, sophisticated imaging methods, the newest surgical techniques, minimally invasive surgery, robotic surgery, and transplant surgery.

Surgeons and related professionals are invited to contribute manuscripts to this Special Issue. Contributions can be original articles (prospective/retrospective studies), experimental studies, narrative reviews, systemic reviews and meta-analyses, or new diagnostics or surgical techniques.

We look forward to receiving your contributions
