

Special Issue

Advancements in Artificial Intelligence and Data Science for Cardiovascular Health

Message from the Guest Editor

Cardiovascular disease is the highest cause of mortality worldwide. Machine learning approaches are increasingly being applied in the field and provide a better understanding of various predictors of cardiovascular diseases. In this issue, we are seeking to obtain insight into the advances that these methods and techniques have brought into the field. The topics of interest include, but are not limited to, the following: Accelerating patient benefit in cardiology using artificial intelligence;

Artificial intelligence for public health;

Cardiac image processing;

Data mining in cardiology;

Decision support systems in cardiovascular health;

Digital cardiology;

Machine learning and deep learning methods in cardiovascular health;

Machine learning in drug development in cardiology;

Machine learning to handle cardiology hospital records;

Personalised cardiology using machine learning;

The prediction of cardiovascular risk (hypertension, myocardial infarction, atherosclerosis, stroke, etc.).

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
