

Special Issue

Prevention, Intervention, and Care of Neurodegenerative Diseases

Message from the Guest Editors

Our current ability to detect neurodegenerative diseases early and manage them is limited. The insidious processes underlying these conditions are only partly understood, while the treatments used have limited efficacies. Current research aims to understand the mechanisms underlying the progressive axonal loss in various neurologic conditions and seeks ways to properly monitor, quantify, and treat their relevant clinical implications. This Special Issue of *Healthcare* seeks commentaries, original research, short reports, and reviews focussing on challenges in detecting, monitoring, and treating neurodegenerative diseases. This Special Issue aims to provide information about advances in the research of various primarily neurodegenerative conditions such as dementia, Parkinson's Disease, motor neurone disease, and diseases with evident neurodegenerative components such as multiple sclerosis.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
