

## Special Issue

# The Outcome of Sepsis: Second Edition

### Message from the Guest Editors

Sepsis remains the top reason for mortality and morbidity in intensive care, affecting both developed and developing countries. Despite research advancements, there is limited knowledge about medium- and long-term outcomes of the host response to bacterial, viral and parasitic pathogens. Given the importance of the subject and success of the first edition, we would like to explore this topic further. The second issue will be open to any subject related to the determinants, outcomes, conceptual framework, simulation, estimates and intervention related to medium- (months) and long-term (years) outcomes of a variety of pathogen–host interactions. Topics of interest include, but are not limited to, the following:

- Conceptual framework related to evolution of the pathogen–host interaction
- Determinants of the unfavorable resolution of the post-infection sequela;
- Clinical, societal and economical impact of post-infection resolution
- Disparities leading to bias in outcomes
- Comparative studies focusing on different countries and healthcare systems
- Estimates of impact
- Interventions leading to improving long-term outcome of inflammatory sequel

### Guest Editors

Dr. Krzysztof Laudanski

Department of Anesthesiology and Perioperative Medicine, Mayo Clinic, Rochester, MN 55902, USA

Dr. Daniel A. Diedrich

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

#### Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1  
(Leadership and Management)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
