

Special Issue

Post-traumatic Stress Disorder (PTSD) in Children

Message from the Guest Editor

We are pleased to invite you to contribute to this Special Issue 'Post-traumatic Stress Disorder (PTSD) in Children' that welcomes articles that either i) describe successful prevention strategies of childhood maltreatment, ii) promote effective programs to increase resilience in victims, iii) focus on clinical assessment and diagnosis of post-traumatic stress reactions in children, iv) consider risk factors (neurobiological, cognitive, and other factors) that are hypothesized to increase the risk of PTSD in trauma-exposed children, or v) evaluate current psychotherapeutic/pharmacotherapeutic treatments for childhood PTSD. The goal of this Special Issue 'Post-traumatic Stress Disorder (PTSD) in Children' is to promote effective childhood maltreatment reduction policies, share evidence about field experience, intercultural views and academic knowledge in order to enhance access to care and understanding of PTSD in Children. Keywords: trauma; childhood maltreatment; prevention; resilience; PTSD; therapy; policies I look forward to receiving your contributions.
