

## Special Issue

# Moving Forward: Implementing Patient-Centered Care in Hospitals

### Message from the Guest Editor

In a world with increasing life expectancy, rising levels of chronic illness, a growing aging population, and austerity in public hospitals, health promotion must increasingly rely on a strategy that benefits all stakeholders, from patients and clinicians to health systems alike. The aim of this Special issue is to demonstrate how barriers to the implementation of PCC can be removed and how the removal of barriers will result in benefits all stakeholders, patients, clinicians and hospitals, promoting overall health.
