

## Special Issue

# The Role of Nutrition in Metabolic Dysfunction-Associated Steatotic Liver Disease

### Message from the Guest Editor

Metabolic dysfunction-associated steatotic liver disease (MASLD) is a common cause of chronic liver disease in most countries. Malnutrition (undernutrition and overnutrition) plays a pivotal role in the onset and progression of MASLD. Also, innovative dietary therapies, including those based on caloric restriction and nutrient modification or bioactive food compound supplementation, could contribute to the precise management of MASLD. This Special Issue covers epidemiological and observational evidence about the implication of nutrition on the prevalence of MASLD. Clinical trials focused on the use of dietary interventions for the treatment of MASLD are encouraged. Comprehensive reviews covering the most important advances concerning the interplay of nutrition in MASLD are also welcome.

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

*Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

#### Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1  
(Leadership and Management)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
