

Special Issue

Comprehensive Intervention in People with Disabilities

Message from the Guest Editors

We are pleased to invite you to contribute to the Special Issue titled “Comprehensive Intervention in People with Disabilities,” which aims to advance knowledge and practice in holistic and multidisciplinary approaches to disability care. This Special Issue aligns with the journal’s focus on health promotion, rehabilitation, and inclusive healthcare strategies. The scope covers integrated care models addressing the physical, psychological, social, and environmental needs of people with disabilities. We welcome original research articles, systematic reviews, and case studies that explore innovative interventions, policy development, community participation, assistive technologies, and barriers to inclusion. Research that highlights evidence-based practices and fosters improved quality of life and autonomy for individuals with disabilities is particularly encouraged. This Special Issue seeks to build a collaborative platform for clinicians, researchers, and policymakers devoted to comprehensive disability care. We look forward to receiving your valuable contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
