

Special Issue

Towards a Psychosociopolitical Approach to Mental Health: Individual and Societal Determinants of Mental Illness and Health in Adults

Message from the Guest Editors

Mental health is determined by the interaction and/or compounding effects of multi-level factors, including individual; interpersonal and structural sociopolitical. Additionally, individual beliefs on mental health and illness, on evidence-based mental health solutions, as well as social representations of mental health and illness, contribute to individuals' knowledge and/or perceptions of available mental health resources, and to their attitude towards mental health care professionals and services. With this Special Issue, we aim to contribute to a multi-level and socio-ecological understanding of mental health and illness, and the associated protective and risk factors. Studies that are conducted within a biopsychosocial framework, and integrate neurobiophysiological correlates of psychological processes and mental health indicators, are encouraged, as are studies adopting a socio-ecological approach to the mental health of individuals from minoritized communities.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
