

Special Issue

Nutrition Interventions for Chronic Disease Management

Message from the Guest Editors

The Special Issue aims to promote research targeting the prevention and mitigation of chronic diseases, focusing on multifaceted and innovative nutrition and medical approaches. Original research articles, case reports, and reviews are welcome. Research areas may include (but are not limited to) the following: articles utilizing evidence-based nutrition interventions for chronic disease management with a consideration of cultural, social, and economic determinants of health, food as medicine, and implementation of nutrition interventions. By acknowledging the influence of effective nutrition interventions within medical spaces, progress can be made towards mitigating the impact of chronic conditions and promoting a more equitable healthcare system.
