

## Special Issue

# The Relationship of Social Media and Cyberbullying with Mental Health

### Message from the Guest Editors

The Special Issue "The Relationship of Social Media and Cyberbullying With Mental Health" is open to studies involving participants of any age and aims to highlight innovative research and reviews that align with the journal's scope, specifically on the relationship between social media and cyberbullying with mental health. This Special Issue aims to publish original, high-quality research papers as well as systematic reviews that present innovative approaches to guide mental health research, practice, and policy in addressing this challenge collaboratively. In this Special Issue, research areas can include (but are not limited to) the following: - The relationship between problematic internet use and mental health. - Psychosocial interventions to detect and prevent cyberbullying situations and mental health impact. - The relationship between gaming disorder and mental health. - The relationship between online aggressions and mental health. We look forward to receiving your contributions.
