

Special Issue

Physical Therapy and Rehabilitation in Sports

Message from the Guest Editors

The aim of this Special Issue is to publish the most current and innovative scientific evidence in the field of physical therapy and rehabilitation, encompassing both interventional and observational studies. In this context, all types of systematic reviews and clinical trials are welcome, as well as other cross-sectional study designs, provided that the applied methodologies are sufficiently robust and the topics align with the scope of the Special Issue.

Research areas may include (but are not limited to) the following:

- Systematic reviews and meta-analyses;
- Validation studies related to physical therapy and rehabilitation in sports;
- Clinical trials evaluating the efficacy or the effectiveness of non-surgical interventions in sports medicine;
- Pilot and feasibility studies;
- Diagnostic studies;
- Cross-sectional, cohort, or case-control studies;
- Validation and reliability studies;
- Pertinent clinical reports or case series.

We look forward to receiving your contributions.
