

## Special Issue

# Dental Research and Innovation: Shaping the Future of Oral Health

### Message from the Guest Editors

This Special Issue, “Dental Research and Innovation: Shaping the Future of Oral Health”, aims to spotlight recent innovations and clinically relevant advances that enhance patient outcomes in dental medicine. We welcome original research articles, reviews, and case series that examine clinically applied advancements in dental diagnostics, therapeutic procedures, and patient-centered strategies. Topics of interest include, but are not limited to

- Clinical applications of digital dentistry and artificial intelligence to improve diagnosis and treatment planning;
- Evidence-based advances in restorative and minimally invasive dentistry focused on preserving oral function and health;
- Periodontics, endodontics, and implantology with a focus on therapeutic innovation and long-term outcomes;
- Orthodontics and craniofacial research addressing clinical challenges and solutions;
- Oral-systemic health interactions and public health strategies that impact clinical dental care;
- Innovations in professional dental education and digital training that enhance care quality and practitioner expertise.
