Strategies for Surgical Treatment of Colorectal Liver Metastases

Message from the Guest Editors

It is our pleasure to announce the launch of a new Special Issue of *Healthcare* on “Strategies for Surgical Treatment of Colorectal Liver Metastases”. Colorectal cancer is the second most common cancer among women and the third most common among men. It accounts for 10% of all cancer-related deaths globally, and about 25%–50% of patients develop colonic liver metastases (CRLMs). This Special Issue will focus on the different surgical options for the treatment of synchronous or metachronous CRLMs, which include parenchyma-sparing liver resections; minimally invasive surgery; the so called “liver-first approach”; two-staged hepatectomy; ALLPS; and more recently, liver transplantation. Ablation techniques will also be addressed in this publication, as they play a role in the multimodal treatment of CRLMs. We look forward to receiving your abstracts on these topics. A webinar involving the best experts in this field will be held on 18 November 2021 at 3 pm CET.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
