Special Issue

Precision Public Health and Genomic Medicine

Message from the Guest Editors

This Special Issue will focus on the latest findings, challenges, and debate in precision public health and genomic medicine. Studies across diverse populations and clinical care settings are welcome. Multiple disciplines including behavioral research, implementation science, sociology, anthropology, communications, health economics, clinical genetics, genetic counseling, epidemiology, and health systems research will be featured in this Special Issue to highlight the multi-faceted research that is leading the way forward in this new era.
