

Special Issue

Healthy Living and Risk Reduction after TIA and Stroke

Message from the Guest Editors

This Special Issue of Healthcare focuses on non-surgical, non-pharmacological, stroke secondary prevention. Following transient ischaemic attack (TIA) or stroke, rates of recurrence are high. The high rate of recurrence of stroke and other cardiovascular events indicates the need for early implementation of effective secondary prevention measures that address modifiable risk factors. International best practice guidelines for stroke secondary prevention, while aetiology-dependent, generally include medication prescription (anti-hypertensive, lipid lowering, anti-platelet/coagulant); high-level evidence supports this recommendation. Conversely, recommendations for lifestyle modifications have lower levels of evidence, largely drawn from primary prevention studies, and as a result, some population-attributable stroke risk factors (e.g., psychosocial stress) are inadequately addressed. Conclusive evidence is lacking on how best to support stroke survivors to engage in risk-reducing behaviours. This issue aims to help to redress the evidence imbalance and promote awareness of this important, under-researched topic.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
