The Impact of COVID-19 on Healthcare Services

Message from the Collection Editors

This Special Issue aims to summarize the latest research that analyzed the impact of COVID19 on health services. In particular, papers that examine trends in hospital admissions during the pandemic, the impact of COVID19 on chronic conditions and ambulatory care sensitive conditions, and the effect of preventive strategies to improve hospital care in patients with and without COVID-19. Papers which examine the epidemiology of COVID-19 hospitalization, primary care, out-hospital management of the disease, the impact of COVID-19 on other diseases, and the economic burden of COVID-19 will also be considered.
