

Special Issue

Mental Health Promotion and Illness Prevention in Vulnerable Populations

Message from the Guest Editors

This Special Issue of Healthcare, entitled “Mental Health Promotion and Illness Prevention in Vulnerable Populations”, welcomes original contributions of relevance to this area of research across any setting, cultural background, and academic disciplines with the hope of identifying work that will address groups at risk for mental disorders. Multidisciplinary research projects are especially encouraged. Authors are invited to submit research papers (quantitative, qualitative, case-studies, or mixed-methods studies), concept analysis papers, quality improvement papers, and review papers. We would also encourage submissions from countries or regions in which the knowledge dissemination in this field has been sparse (e.g., Southern, Central, and Eastern Europe, West and Central Africa, South and Central America, etc.).
