Message from the Guest Editors

The Special Issue “Analytical Chemistry for Archaeology and Cultural Heritage” presents an intriguing and innovative exploration of the intersection of chemical sciences and heritage studies. Aimed at fostering the development and application of analytical chemistry techniques to solve complex challenges in archaeology and Cultural Heritage preservation, this issue embodies a comprehensive compilation of research articles, reviews, and case studies highlighting recent advancements, methodologies, and applications in the field.

Deadline for manuscript
submissions:

30 November 2024
