

Special Issue

Architectural Heritage and Cultural Landscape

Message from the Guest Editors

This Special Issue focuses on architectural heritage as a central field of multidisciplinary research, addressing historical buildings and cultural landscapes within urban, rural, and territorial contexts shaped by ongoing socio-economic, cultural, productive, and administrative transformations. An integrated and interdisciplinary approach is encouraged, bringing together perspectives architectural history, conservation, geomatics, drawing, urban design, landscape and interior architecture, and exhibition design, as well as real estate appraisal and project evaluation, structural analysis and design, and building physics and energy systems, intersecting disciplinary trajectories through established methods and proposing new forms of fertilizations.

This Special Issue also highlights the role of innovative digital technologies in heritage analysis, historical studies and digital humanities, documentation, restoration, management, and in the communication of research outcomes and intervention strategies.

Guest Editors

Dr. Silvia Beltramo
Dr. Filiberto Chiabrando
Prof. Dr. Monica Naretto

About the Journal

Message from the Editor-in-Chief

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Napoli, Italy

Prof. Dr. Nicola Masini
