Sustainable Conservation of Architectural Heritage—Advancements in Natural Stone Characterization and Preservation Methods, Materials and Management

Message from the Guest Editors

“Sustainable Conservation of Architectural Heritage—Advancements in Natural Stone Characterization and Preservation Methods, Materials and Management” aims to delve into the intersection of sustainable practices and the conservation of architectural heritage, with a specific focus on natural stone materials. This Special Issue seeks to explore innovative approaches and recent advancements in the characterization, preservation, and management of architectural heritage built using natural stone and natural-stone-based materials. This Special Issue aims to serve as a platform for researchers, architects, engineers, conservation practitioners, heritage professionals, and policymakers to exchange knowledge, share experiences, and advance the field of sustainable conservation of architectural heritage, particularly focusing on the unique challenges and opportunities associated with natural stone materials.

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Naples, Italy

Dr. Nicola Masini

CNR-IBAM, 85050 Baragiano Scalo, Italy
