Special Issue

Analytical Chemistry for Archaeology and Cultural Heritage

Message from the Guest Editors

The Special Issue "Analytical Chemistry for Archaeology and Cultural Heritage" presents an intriguing and innovative exploration of the intersection of chemical sciences and heritage studies. Aimed at fostering the development and application of analytical chemistry techniques to solve complex challenges in archaeology and Cultural Heritage preservation, this issue embodies a comprehensive compilation of research articles, reviews, and case studies highlighting recent advancements, methodologies, and applications in the field.

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. Heritage has the ambition to become a "cultural forum", where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. Heritage has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend Heritage for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Napoli, Italy

Prof. Dr. Nicola Masini

- 1. CNR-IBAM, 85050 Baragiano Scalo, Italy
- 2. School of Architecture, University of Basilicata, Potenza, Italy
