

## Special Issue

# Analytical Chemistry for Archaeology and Cultural Heritage

### Message from the Guest Editors

The Special Issue “Analytical Chemistry for Archaeology and Cultural Heritage” presents an intriguing and innovative exploration of the intersection of chemical sciences and heritage studies. Aimed at fostering the development and application of analytical chemistry techniques to solve complex challenges in archaeology and Cultural Heritage preservation, this issue embodies a comprehensive compilation of research articles, reviews, and case studies highlighting recent advancements, methodologies, and applications in the field.

## About the Journal

### Message from the Editorial Board

*Heritage* is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.
