

Special Issue

Frontier Archaeology, Cultural Heritage and Diversity Within Unity of Chinese Civilization

Message from the Guest Editors

China's Frontier regions are not only modern multi-ethnic settlements where various ethnic groups coexist harmoniously but also among the areas with the richest cultural diversity in the country. This Special Issue aims to build a high-quality interdisciplinary exchange platform, focusing on new archaeological discoveries, advanced excavation technologies and the latest research progress in China's frontier regions, as well as the protection, inheritance and display of ethnic cultural heritage. Topics of interest include, but are not limited to: 1. Latest archaeological surveys and important discoveries in frontier regions, especially those reflecting ethnic cultural connotations; 2. Scientific protection and rational utilisation of cultural heritage in frontier regions, including innovative practices and experience summary; 3. Interdisciplinary research integrating archaeology, ethnology, cultural heritage protection and other disciplines on frontier cultural heritage. 4. Ethnoarchaeology in China.

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Napoli, Italy

Prof. Dr. Nicola Masini

1. CNR-ISPC (Institute of Heritage Science), 85050 Tito, Italy
2. School of Architecture, University of Basilicata, Potenza, Italy
