

Special Issue

Sustainable Heritage, Tourism and Communication: Theory and Practice

Message from the Guest Editors

It is of great importance to monitor the effects of tourism on remaining heritage, but also to formulate sustainable development plans for tourist destinations whose heritage has or could have tourist value.

For this, the DMOs and managers, etc., require studies and research to provide them with guidelines and premises on how to convert heritage into a tourist attraction, and how to exploit it for the benefit of society without undermining their identity and preservation, thereby complying with the 17 SDGs. This Special Issue aims to publish original research focused on topics related to sustainable heritage and tourism. Research areas include (but are not limited to) the following:

The effects of tourism on heritage
Sustainable development models for heritage sites
Management methods and tools dedicated to sustainable tourism and heritage
Implementation of sustainability criteria for tourism
Implementation of Sustainable Development Goals (SDGs) for tourism
The role of ICT in the sustainability of heritage
The effects of the COVID-19 pandemic on sustainable tourism and heritage
The preservation of heritage through the implementation of the tourist function
Communication and heritage

Guest Editors

Dr. Alba-María Martínez-Sala

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Napoli, Italy

Prof. Dr. Nicola Masini
