

## Special Issue

# New Advances in Documentation and Monitoring of Archaeological Sites

### Message from the Guest Editors

Archaeological research requires multidisciplinary and interdisciplinary collaboration and the integration of cutting-edge methodologies. Specifically, the documentation and monitoring of archaeological sites represent a significant challenge in the framework of heritage studies, involving experts belonging to different fields of expertise.

The Special Issue aims to address the pressing need for comprehensive documentation and monitoring, acknowledging the diverse challenges faced by archaeologists and heritage conservationists. It seeks to explore innovative approaches and technologies in this domain, with a particular emphasis on: 3D sensing technologies and the optimization of related data processes, spanning from acquisition to processing and management, as well as satellite monitoring and GIS modeling techniques, aimed at assessing the risks posed by environmental hazards on archaeological conservation.

## About the Journal

### Message from the Editorial Board

*Heritage* is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Multidisciplinary Sciences) / CiteScore - Q1 (Archeology (Arts and Humanities))
