

Special Issue

A 360° View of Heritage Management

Message from the Guest Editor

The Special Issue “A 360° View of Heritage Management” strives to comprehensively explore the multifaceted landscape of heritage management. Traditionally, heritage—understood in its broadest sense—was the domain of historians and archeologists, but the reality is that multidisciplinary teams are essential and tend to yield the best outcomes in heritage management. Thus, this Special Issue covers a variety of dimensions including heritage tourism, sustainability, economic impacts, social and cultural facets, and historical and bibliographic studies. Heritage tourism management, once relegated to the realm of tourism practices, has transcended its traditional borders, evolving into a multidisciplinary domain shaped by the forces of globalization, cultural exchange, sustainability imperatives, and the burgeoning phenomenon of heritage tourism. Scholars are encouraged to submit papers that offer nuanced analysis and new perspectives, thereby enriching our collective understanding of heritage management through a global, interdisciplinary lens.

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. *Heritage* has the ambition to become a “cultural forum”, where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. *Heritage* has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend *Heritage* for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Napoli, Italy

Prof. Dr. Nicola Masini

1. CNR-ISPC (Institute of Heritage Science), 85050 Tito, Italy
2. School of Architecture, University of Basilicata, Potenza, Italy
