Special Issue

Smart Heritage: The Role of Heritage in the Cities of the Future

Message from the Guest Editors

Smart heritage stands at the convergence of the fields of smart technology and heritage and plays a significant role in heritage documentation, promotion, and interpretation. It is supported by the rapid development and proliferation of artificial intelligence (AI) and Internet of Things (IoT) technologies in smart cities in several fields. A new generation of smart city initiatives has emerged in which heritage is increasingly important, and many applications permit interaction with cultural assets, thus transforming and enhancing the perceived cultural experience. This Special Issue explores the potential of smart cities' new tools to foster interdisciplinary perspectives in the management, presentation, representation, and effective dissemination of heritage information. This Special Issue explores the opportunities and challenges at the intersection of the disciplines of smart cities and heritage and highlights the latest advancements in the field. This Special Issue solicits research related to smart heritage and the role of heritage in the cities of the future, original and innovative studies that address new challenges and implications in smart heritage.

About the Journal

Message from the Editorial Board

Heritage is an international, peer-reviewed, open access journal that focuses on knowledge, conservation, interpretation and management of cultural and natural heritage, by presenting and enabling novelty and advances in sensing technologies, novel methods, best practices and policies. Heritage has the ambition to become a "cultural forum", where scientists and experts offer answers to significant issues affecting cultural and natural heritage, by creating a knowledge bridge between different technological and social disciplines. Heritage has an Editorial Board of eminent international leaders and this ensures rigorous peer-review processing for high quality and novel papers. We strongly recommend Heritage for the rapid and professional publication of your innovative research and case studies.

Editors-in-Chief

Dr. Francesco Soldovieri

National Research Council of Italy (CNR), Institute for Electromagnetic Sensing of the Environment (IREA), Via Diocleziano 328, 80124 Naples, Italy

Prof. Dr. Nicola Masini

- 1. CNR-IBAM, 85050 Baragiano Scalo, Italy
- 2. School of Architecture, University of Basilicata, Potenza, Italy
