

Special Issue

Feature Papers 2020

Message from the Guest Editor

I am honored to announce a new *High-Throughput* Special Issue "Feature Papers 2020" that compiles a collection of papers from Editorial Board Members (EBMs) and papers invited exclusively by the EBMs. This is also to celebrate the success of our first online board meeting held in October 2019. The Special Issue will collect original research papers, as well as review articles, highlighting the state-of-the-art of high-throughput sequencing, genomics, proteomics, transcriptomics, big data and its related fields.

Guest Editor
