Road, Nagpur 440010, India

Deadline for manuscript  
submissions:

**closed (31 July 2023)**

### Message from the Guest Editors

Citrus is the one of most popular cultivated fruit types around the world. Citrus fruits play an important role in the agro economy of several countries, including China, Brazil, India and the United States. Citrus includes several economically important fruits such as lemons, limes, oranges, mandarins, tangerines, grapefruits, pomelo and many more.

Citrus cultivation and management faces multiple biotic and abiotic challenges. Citrus trees are being attacked by pathogenic bacteria (e.g., *Ca. Liberibacter* spp., *Xanthomonas citri*, *Xylella fastidiosa*, *Spiroplasma citri*, *Ca. Phytoplasma aurantifolia*), fungi (e.g., *Phytophthora citrophthora*, *P. gummosis*, *Alternaria citri*, *Armillaria mellea*), viruses (e.g., CTV, CTLV) and nematodes. Research to help understand the biology, genetics, and ecology of citrus diseases is crucial to device disease management strategies and engineering disease-resistant plants.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Luigi De Bellis

Department of Biological and Environmental Sciences and Technologies, Università del Salento, Centro Ecotekne, Via Provinciale Lecce Monteroni, 73100 Lecce, Italy

## Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

**Journal Rank:** JCR - Q1 (*Horticulture*) / CiteScore - Q2 (*Horticulture*)
