Message from the Guest Editors

“Advances in Precision Orchard and Vineyard Management” is a Special Issue publishing peer-reviewed research papers, review articles, communications and short notes. The aim of this Special Issue is to publish research on the science and technology of precision orchard production, agricultural technology and vineyard management, which deal mainly with the fundamental aspects of crop health, crop protection, precision agriculture, sustainable agriculture, environmental benefits of reduced pesticide use, economic considerations, sampling and monitoring schemes for diseases, pests and weeds, vineyard horticulture, vineyard picking, vineyard management and development, vineyard post-harvest and product freshness. This Special Issue aims to present advanced studies, methods, tools and innovations in the field of precision application in orchards, vineyard horticulture and vineyard harvesting.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Luigi De Bellis

Department of Biological and Environmental Sciences and Technologies, Università del Salento, Centro Ecotekne, via Provinciale Lecce Monteroni, 73100 Lecce, Italy

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank: JCR - Q1 (Horticulture) / CiteScore - Q2 (*Horticulture*)
