

## Advanced Studies in Sustainable Cultivation and Management on Vegetable Crops

Guest Editors:

**Dr. Joana Machado**

**Dr. Carla Sofia Sancho Dos Santos**

**Dr. Marta Nunes Da Silva**

Deadline for manuscript  
submissions:

**21 October 2024**

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

Climate-resilient vegetable varieties and breeding techniques;

Biodiversity conservation and its role in vegetable crop management;

Cover cropping and green manure practices for vegetable crop systems;

Precision agriculture and smart farming in crop production;

Integrated pest management strategies for sustainable farming;

Sustainable weed management in production;

Water-efficient irrigation techniques for vegetable crops;

Nutrient management strategies for enhanced crop yields;

Soil health management techniques for sustainable cultivation;

Organic farming principles in vegetable cultivation;

Carbon footprint reduction in vegetable crop systems.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

**Journal Rank:** JCR - Q1 (Horticulture) / CiteScore - Q2 (*Horticulture*)
