

Special Issue

Analysis, Identification and Utilization of Genetic Resources Related to Peanut

Message from the Guest Editors

Peanut is an important oil crop belonging to Leguminosae. In this Special Issue, we intend to publish original research reports and reviews concerning the genomics and genetics of peanut. Topics might include, but are not limited to, the effects of genotype/environment/G by E on important peanut traits, using genome-wide association studies, genomic selection, or breeding lines to identify the QTLs/genes that can be potentially used in breeding through marker-assisted selection. In addition, this Special Issue also includes the detection of genes using bioinformatic analysis or omics tools. We will particularly consider manuscripts with a clear genetic component and significant impact on peanut breeding.

Guest Editors

Dr. Hui Zhang

Dr. Xinlei Yang

Prof. Dr. Charles Y. Chen

Dr. Ming Li Wang

Deadline for manuscript submissions

closed (25 December 2024)

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
