

Special Issue

Postharvest Biology and Technology of Horticultural Crops

Message from the Guest Editors

This Special Issue will explore cutting-edge scientific and technological advancements in the postharvest management of horticultural crops. We welcome contributions that showcase novel and innovative practices for preserving the quality and prolonging the shelf life of fruits, vegetables, and flowers postharvest. For this Special Issue, we encourage an interdisciplinary approach, integrating aspects of biology, chemistry, engineering, and food technology to address complex postharvest challenges.

Keywords

postharvest management
food sustainability
shelf life extension
horticultural crops
interdisciplinary approach

Guest Editors

Dr. Noelia Castillejo

Postharvest and Refrigeration Group, Department of Agronomical Engineering and Institute of Plant Biotechnology, Universidad Politécnica de Cartagena, 30203 Cartagena, Spain

Dr. Danial Fatchurrahman

Research Unit in Postharvest Technology, Department of Agriculture, Food, Natural Science, Engineering, University of Foggia, Via Napoli 25, 71122 Foggia, Italy

Deadline for manuscript submissions

closed (30 April 2026)

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, 73100 Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
