Medicinal and Aromatic Plants: Isolation, Characterization and Biological Activities

Message from the Guest Editor

Aromatic and Medicinal plants are species of great importance for traditional medicine. They are reported in different countries for the treatment of various pathological conditions that affect human health; however, taking into account the need for scientific validation of potential pharmacological and toxicological properties of these species, it is necessary to analyze the chemical profile through the identification, isolation of metabolites and verification of the action of these molecules in chemical and biological tests. This special edition with the title of “Medicinal and Aromatic Plants: Isolation, Characterization and Biological Activities” aims to present studies that report the chemical characterization of botanical species in different environmental conditions, as well as the chemotaxonomic differences between species of pharmacological importance and isolation of molecules with bioactive properties.

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
