

Special Issue

Advances in Citrus Horticulture

Message from the Guest Editors

The purpose of this Special Issue on “Advances in Citrus Horticulture” is to present cutting-edge studies, tools, methods, and innovations that have been successful in several fields of citrus horticulture. Your contribution to this topic through literature reviews or original research papers that deal with citrus horticulture are welcomed on fresh and for processing markets. I look forward to the opportunity to receive your manuscripts and share interesting outcomes with the community of scientists, students, technicians, and professionals that work with citrus worldwide. Potential topics include, but are not limited to:

- New propagation methods
- Precision irrigation
- Enhanced nutrition
- Scion and rootstock selection
- Soil health improvement
- Modern cultural practices
- High-density plantings
- New production technologies
- Integrated pest, disease and weed management
- Post-harvest technologies and others

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
