## 10th Anniversary of *Horticulturae*: Sustainable Practices in Table Grape Production

### Message from the Guest Editors

Sustainability in table grape production is crucial as global demand grows. Key practices include efficient water use through drip irrigation and soil moisture sensors, reducing waste while boosting vineyard health. Integrated pest management (IPM) and organic farming minimize chemical inputs, enhancing biodiversity and soil fertility. Breeding programs develop pest/disease-resistant and drought-tolerant varieties, reducing pesticide use and conserving water. Improved fruit traits like shelf life also cut food waste. Social and economic sustainability involves fair labor practices, worker training, and renewable energy adoption. These efforts align with consumer demand for eco-friendly, socially responsible products. This Special Issue, “10th Anniversary of *Horticulturae*: Sustainable Practices in Table Grape Production”, invites original papers and reviews on these advancements.

### Guest Editors

Dr. Sergio Ruffo Roberto

Department of Agronomy, Agricultural Research Center, Londrina State University, Celso Garcia Cid Road, Londrina P.O. Box 10.011, Brazil

Dr. Gizella Gyorfflyne Jahnke

Badacsony Research Station, Institute of Viticulture and Oenology, Hungarian University of Agriculture and Life Sciences, 8261 Badacsonytomaj, Hungary

### Deadline for manuscript submissions

30 October 2025

## About the Journal

### Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

#### Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
