

Special Issue

Factors Affecting the Quality and Shelf Life of Horticultural Crops

Message from the Guest Editor

Horticulturae (SCIE-indexed; Tracked for IF) is an open-access journal that has launched a new Special Issue titled "Factors Affecting the Quality and Shelf Life of Horticultural Crops." Quality and shelf life is an important issue of horticultural crops. This objective can be achieved through 1) the knowledge of growing methods (organic cultivation, conventional cultivation, rock-wool cultivation, and hydroponic culture), 2) the growing conditions (temperature and humidity), 3) treatments (pre- and postharvest), and 4) commercial handling conditions (distribution, transportation, and exportation) of horticultural crops. Therefore, given the expertise in this research area, we would like to invite you to submit an article to the present Special Issue.

Guest Editor

Dr. Mohammad Zahirul Islam

Department of Food Science and Biotechnology, Gachon University,
Seongnam 13120, Republic of Korea

Deadline for manuscript submissions

closed (20 June 2024)

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
