

Special Issue

Refining Irrigation Strategies in Horticultural Production

Message from the Guest Editors

Horticulturae is planning a special issue focusing on Irrigation Strategies in Horticultural Production. We now have the following papers in preparation on several aspects of this research area, and are welcome to more research articles and reviews on this important topic.

- Irrigation of orchard crops
- Genetics
- Irrigation of horticultural crops
- Micro-irrigation and horticultural crops
- Precision irrigation—center pivot irrigation systems
- Devices for field crops and greenhouses to improve water and nutrient management
- Pollution
- Fertigation
- The use of unmanned aerial systems in precision horticulture
- Climate change impacts on water use in horticulture

Guest Editors

Prof. Dr. Arturo Alvino

Department of Agricultural, Environmental and Food Sciences,
University of Molise, 86100 Campobasso, Italy

Prof. Dr. Maria Isabel Freire Ribeiro Ferreira

Instituto Superior de Agronomia, Universidade de Lisboa, LEAF, Lisboa,
Portugal

Deadline for manuscript submissions

closed (20 January 2017)

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, 73100 Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
