

Special Issue

Women's Special Issue Series: Horticulturae

Message from the Guest Editors

In order to embrace gender equality, recognize the career progression made by women, and to celebrate the achievements of women in the field of horticulture, we are launching the Special Issue “Women's Special Issue Series: Horticulturae”. The topics of interest include, but are not limited to, the following:

- Conventional, sustainable and organic production—planting to harvest;
- Precision horticulture and technological innovation;
- Protected cultivation;
- Smallholder production systems;
- Urban horticulture;
- Propagation and seed production;
- Genetics, genomics, breeding, and biotechnology;
- Physiology, biochemistry, and molecular biology;
- Interactions with pests and pathogens;
- Effects of abiotic stresses and climate change;
- Modeling plant growth and productivity;
- Pre- and post-harvest quality;
- Nutritional and phytochemical composition;
- Product processing, storage, transport, and wastage;
- Economics and marketing;
- Outreach, extension, and education.

Articles with female lead authors, or those that are authored entirely by women, are encouraged. We welcome submissions from all authors, irrespective of gender.

Guest Editors

Prof. Dr. Silvana Nicola

Dr. Giulia Giunti

Prof. Dr. Isabel Lara

Deadline for manuscript submissions

closed (25 October 2022)

About the Journal

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Editor-in-Chief

Prof. Dr. Luigi De Bellis
Department of Biological and Environmental Sciences and
Technologies (DiSTeBA), Salento University, Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank:

JCR - Q1 (Horticulture) / CiteScore - Q1 (Horticulture)
