

## Special Issue

# Water Pollution Solutions: From Ecological Risk Assessment to Biological Restoration

### Message from the Guest Editor

This Special Issue aims to bridge scientific inquiry and practical application, serving as a platform for researchers, policymakers, and practitioners to collaborate on advancing biological restoration as a cornerstone of water resource management. By synthesizing global insights, the Special Issue will catalyze progress toward cleaner waterways, healthier ecosystems, and sustainable development goals. Potential authors are invited to contribute original research, reviews, case studies, or opinion pieces that illuminate pathways for transformative biological restoration strategies.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Martin Edwards

Plymouth Marine Laboratory, Prospect Place, Plymouth PL1 3DH, UK

---

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

##### High Visibility:

indexed within Scopus and other databases.

##### Journal Rank:

CiteScore - Q2 (Agricultural and Biological Sciences (miscellaneous))
