

Special Issue

Nutrition–Physiology Interactions in Aquatic Species

Message from the Guest Editors

This Special Issue is dedicated to assembling pioneering research and comprehensive reviews that delve into the intricate interplay between fish nutrition and physiological responses. We invite submissions focusing on groundbreaking feed formulations, such as novel protein and lipid sources, functional additives, nutritional metabolism pathways, dynamic interactions with gut microbiota, and adaptive physiological mechanisms in response to environmental or dietary stressors. This collection will serve as a bridge between fundamental science and industry applications, contributing to the sustainable development of aquaculture.

Guest Editors

Dr. Dizhi Xie

College of Marine Science, South China Agricultural University,
Guangzhou, China

Dr. Songlin Li

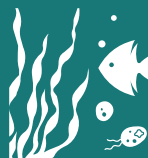

College of Fisheries and Life Science, Shanghai Ocean University,
Shanghai 201306, China

Dr. Kangle Lu

Fisheries College, Jimei University, Xiamen, China

Deadline for manuscript submissions

30 January 2026
