

Special Issue

Feature Papers in Hydrogen (Volume 2)

Message from the Guest Editor

We are pleased to announce that *Hydrogen* is now compiling a collection of papers submitted by the Editorial Board Members (EBMs) of our journal and outstanding scholars in this research field. We welcome contributions and recommendations from the EBMs. The purpose of this Special Issue is to publish a set of papers that typify the most exceptional, insightful, influential, and original research articles or reviews. We expect these papers to be widely read and highly influential within the field. This Special Issue is also a follow-up to the first Special Issue entitled “Feature Papers in Hydrogen” published in 2022. We would also like to take this opportunity to call on more scholars to join *Hydrogen* so that we can work together to further develop this exciting field of research.
