

Special Issue

Recent Advances in Rapid Diagnostic Testing for Infectious Diseases

Message from the Guest Editors

We are pleased to announce this Special Issue, entitled “Recent Advances in Rapid Diagnostic Testing for Infectious Diseases”. This call for papers aims to highlight the recent advancements in and the clinical impact of rapid diagnostic testing for infectious diseases in the context of global public health. This includes innovations in the diagnosis of emerging infectious diseases; the clinical utility of rapid diagnostic testing to support infections, including advanced HIV disease, sexually transmitted infections, hepatitis, influenza, tuberculosis, fungal and bacterial infections; and implementation successes in public health settings for available point-of-care technologies.

Guest Editors

Dr. Lara Vojnov

Global HIV, Hepatitis and STI Programme, World Health Organization,
1211 Geneva, Switzerland

Dr. Heather Alexander

US Centers for Disease Control and Prevention, Atlanta, GA, USA

Deadline for manuscript submissions

closed (3 November 2023)
