Deadline for manuscript
submissions:

15 November 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue is an opportunity to address mental health, stigma, and addictive behaviors, as well as their consequences and risk factors from a psychological point of view. The *International Journal of Environmental Research and Public Health* is an interdisciplinary journal, covering topics as varied as climate change, infectious disease epidemiology, healthcare services, or environmental Earth science, amongst many others. Scientific research in psychology relates to most—if not all—of those topics, as they all involve human-related activities.

Potential topics include (but are not limited to):

- Mental health and economic factors;
- Mental health and homelessness;
- The stigma of mental health;
- Prevention of stigma related to intellectual disability;
- Compulsive gambling;
- Internet gaming disorders;
- Other addictive behaviors;
- Self-regulation and addictive behaviors;
- Interventions in substance abuse;
- Relapse prevention in the treatment of substance abuse.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
