### Message from the Guest Editor

This Special Issue aims to bring together original research (empirical and theoretical) that will focus on how intersectional discrimination impacts health outcomes across the life course. Quantitative, qualitative, or mixed-methods studies are welcome. Areas that papers might emphasize include, but are not limited to, the following:

Deadline for manuscript  
submissions:

**closed (30 September 2023)**

- Manuscripts that use an intersectional lens to understand the impact of discrimination on health outcomes across any stage of development (e.g., early childhood, adolescence, emerging adulthood, and older adults).
- Manuscripts that discuss or test theoretical frameworks that illuminate the association between intersectional discrimination and health outcomes.
- Manuscripts that discuss the impact of intersectional discrimination on health outcomes and the identification of protective factors for individuals across the life course.

Lane, Baltimore, MD 21251, USA

## Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
