

Intelligent Systems for One Digital Health

Guest Editors:

Prof. Dr. Giacinto Barresi

Dr. Sabrina Cipolletta

Dr. Andreas Triantafyllidis

Prof. Dr. Kenji Suzuki

Deadline for manuscript
submissions:

closed (10 June 2024)

Message from the Guest Editors

This Special Issue will present contributions on intelligent systems that (currently or potentially) enhance ODH across domains such as:

1. Machine learning and deep learning in biomedical applications;
2. Digital health, digital therapeutics, digital biomarkers;
3. Big data, omics models, digital twins, precision medicine;
4. Psychology of health, aging, disability, inclusion;
5. Wearable technologies, Internet of Things, ambient intelligence;
6. Robotics, extended reality, telemedicine, telerehabilitation;
7. Human, animal, environmental monitoring for public health;
8. Smart systems in agriculture, farming, the food industry, and the drugs industry;
9. Medical devices usability and ergonomics, health technology assessment;
10. Ethical and legal issues in healthcare systems.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Scientific discoveries and advances in this research field play a critical role in providing a rational basis for informed decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
